

Vital Polykelp

Offers immediate soil stabilisation whilst delivering soil ameliorants and conditioning capabilities.

Vital Polykelp is part of the Vital Bon-Matt series of erosion and dust control products developed for immediate erosion control and vegetation establishment, Vital Polykelp provides an ideal environment for sustainable vegetation growth.

Vital Polykelp is proven to deliver immediate soil stabilisation through erosion control and the establishment of vegetation to exposed areas for long term environmental compliance.

The biostimulants and soil conditioners incorporated into Vital Polykelp's formulation, provide available nutrients for immediate results. This unique formulation delivers soil stabilisation and efficient soil amelioration to provide a self-sustaining ecosystem.

- Cost effective
- Immediate soil stabilisation
- Soil amelioration
- Long term ground cover
